

Monitoring COVID-19 readiness in schools

Schools are still very much open in England, but they are adapting and preparing for COVID-19. Here at Teacher Tapp we are asking questions about these preparations to over 7,000 teachers several times a week. Since we are getting lots of requests from journalists and teachers to see the detailed breakdowns of the responses, we've decided we will post them directly onto a google sheets. You are welcome to use them as you wish!

[Click here for the google sheets \(it will update every few days\)](#)
